Self-assessment of your risk of infection

**Do you know anyone who tested positive for Covid-19?**

- **Yes**
  - Were you anywhere near that person during the infectious period?*
    - **No**
      - But someone with whom you had personal contact was near a person who had tested positive?
        - **No**
          - You are not a contact person.
        - **Yes**
          - Did your contact person have symptoms, especially coughing and a fever?
            - **No**
              - You are not a contact person.
            - **Yes**
              - The contact person should report to the district health authority. You yourself should wait and see whether this person tests positive. If YES, then go through this flow chart again.
    - **Yes**
      - Did you have at least 15 min. direct contact (<2 m distance) with the person, or were you with that person >30 min. in a poorly aired room, without both of you wearing a mask covering your mouth and nose?
        - **No**
          - You are not a contact person.
        - **Yes**
          - Did you touch a bodily fluid of this person, e.g., through kissing, sneezing or coughing?
            - **Yes**
              - You are a contact person Category 2 Low risk of infection
                - Report to the district health authority by calling tel. 06221 522-1891
            - **No**
              - You are a contact person Category 1 High risk of infection

* 2 days before the first symptom appears and until at least 10 days after symptoms began. For people with no symptoms: 2 days before the test until at least 10 days after the test.
